Hi Jon – your call.....

I think, since this is a non-commercial, an e-mail permission giving them a one-time, non-exclusive use of the image should suffice, rather than going through OCon for a formal license agreement.

Dear team of Smithsonian Institution Department of Invertebrate Zoology

Through this, I am writing to request permission to use the image of the species "Priapulus tuberculatospinosus" (USNM 49654).
The desire to use this image in a small sub-Antarctic wildlife

educational book Porvenir Bay (Strait of Magellan). This book is educational, not commercial.
The reason for using this is because our specimen is damaged.
If you agree, we will add the text in the book: "Information provided with the permission of the National Museum of Natural History, Smithsonian Institution, 10th and Constitution Ave. N.W., Washington, DC 20560-0193. (<http://www.nmnh.si.edu/>)"

Thankful in advance
Yours sincerely
