Marseilles July 26

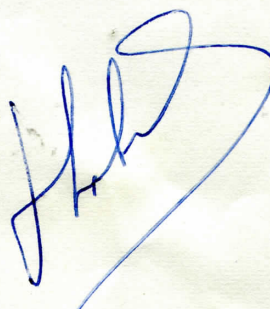

Dear Dr BAYER

A letter from Mrs TIXIER-DURIVAUT just reaches me: Mrs TIXIER thinks, as I am thinking too that since your work is already advanced it is most convenient to send you all CALYPSO material for study.

^{at} Material from Museum is not completely sorted and might be sent after the holidays but I am going to send you all my CALYPSO material and personal collects this week by air mail so it will reach you soon.

^With our best feelings

Yours sincerely

Jacques LABOREL
