

List of specimens pertaining to loan 2000116 (US legacy number)

See attach documentation

Date	Received	Sent	AAU record notes
1995.11.06	95		Receipt of loan 2000116. Ophioglossaceae and Gleicheniaceae for the Flora of Ecuador, incl. 8 types
1998.11.06		53	No loan number stated on shipping document, but US annotation suggests US2000116. Shipment included type of Danaea wrightii.
2002.07.11		6	No loan number stated on shipping document, but US annotation suggests US2000116 and that 36 sheets remain to be returned
2013.03.12		38	Incl. 4 type specimens: US barcode no. 00135890, 00135891, 00135889, 00135900. We have no acknowledgement of receipt from US, but the types are in the US type registry suggesting that the material was received by US. We have photos of all 38 sheets sent to US, so you could check a sample for presence
2015.05.11		2	2 types belonging to loan 2000116 returned together with loan 356206
2015.05.11		1	1 specimen accredited to loan 200016, returned together with loan 356206
Total	95	100	Numbers do not add up. One or more of the shipments must have contained material from other loans.
